

Grove Creek Maple Farm **Deliveries and Planting Guide**

All deliveries are made in fully enclosed trailer during spring and summer months while fully leafed. During winter months some deliveries will be made by pickup truck depending on size.

If you decide to haul your own trees in an open pickup or trailer we recommend bringing an old sheet or shade cloth to protect the leaves during transport (during winter this is not needed)

We do try to have burlap available to wrap but cannot promise this as we sometimes run out.

Local Delivery Fees

Due to variances in deliveries all fees must be set based on tree(s), distance , etc.

Min delivery charge is \$75.00 for distances up to 20 miles Delivery charges are due upon delivery arrival and must be made in cash to avoid associated fees.

Planting

We only offer planting services for trees 20 gallons or less. Planting services start at \$50 and vary depending on tree qty. & tree size. Included is the planting of tree(s) , soil amendments, fertilizer (depending on time of year and clean up of area when finished. Mulch is not provided but small amounts can be spread if you have it on hand.

Any larger trees will need to be planted by land scaping service with equipment. We have a couple names we can provide if needed.

****Important Information****

All utilities will have to be marked prior to planting anything over 10 gallons (No Exceptions!!) This is for safety as well as expensive repairs to the home owners. This can be done by calling 811 & requesting. Usually is free of charge!!
